

Thankyou for enquiring with us regarding a recovery truck bed. These prices are based on a 7-7.5Tonne truck with twin rear wheels. If the vehicle is brand new and unregistered and requires type approval there is an additional cost of £700 plus VAT to do this for you so it can be registered. The truck must come to us first to be booked in as all our bodies are bespoke to each truck! Bodies can not be pre made without truck landing. Discounts are available if more than 3 are being built together from you and are the same trucks. Please enquire with Josh for any more information!

## ABT-F FULL BODY BASIC SPEC
